

## Internet Explorer 7 Issue

*There is a problem with this website's security certificate.*

*The security certificate presented by this website was not issued by a trusted certificate authority.*

*The security certificate presented by this website has expired or is not yet valid.*

*Security certificate problems may indicate an attempt to fool you or intercept any data you send to the server.*

*We recommend that you close this webpage and do not continue to this website.*

*Click here to close this webpage.*

*Continue to this website (not recommended).*

*More information.*

The error is a "feature" of IE7's new Phishing Filter. Because our certificate is a DoD certificate and not from a public issuer like Verisign, it's not automatically trusted by Microsoft.

Our organization will be working with Microsoft to find a solution for this issue.
