

DLA volunteers participated in the Operation Warfighter Outreach Event held at Walter Reed National Military Medical Center, Bethesda, MD on Oct 25th, 2011. The Operation Warfighter program represents an opportunity for Service members to augment their employment readiness by building their resumes, exploring employment interests, obtaining formal and on-the-job training, and gaining valuable Federal government work experience that will help prepare them for the future. Federal agencies represented included the U.S Department of Immigrations, U.S. Department of Justice, Drug Enforcement Agency, and Department of Homeland Security. Our representatives met with a diverse group of Wounded Warriors from the Army, Navy and Marine Corps and were able to reach out to them explaining DLA's overall mission and how the agency is striving to become "World Class". "There are wonderful opportunities at DLA for these brave Men and Women and I would love to have the honor of bringing them aboard" stated one volunteer.
