

SPECIAL EDITION

Personnel Employee Bulletin

October 28, 2009

Pandemic Influenza Information

With the prevalence of the H1N1 virus, also known as swine influenza, in the news, the Defense Logistics Agency's Human Resources Directorate has created an informational Web page for DLA employees.

At this Web page, employees and supervisors can find guidance, flexibilities, supervisor/managerial-specific information and helpful hints related to pandemic influenza. The page is available at: <http://www.hr.dla.mil/Pandemic.html>

Additionally, DLA has developed questions and answers as circumstances have arisen related to H1N1. We have created a variety of scenarios for potential issues so supervisors and employees will have guidance to reference. FAQs will be updated as questions/scenarios are received. If you have situations occur in your area, be sure to reference this material. The information is available at <http://www.hr.dla.mil/downloads/Flu/PandemicFAQ.pdf>

For further information, employees and supervisors may contact their servicing DHRC.

For additional information, please contact your servicing DLA Human Resources Center, <http://www.hr.dla.mil/cntctus.htm>. The Personnel Employee Bulletin will be published on the first Wednesday of each month.
