

Special Edition of the Personnel Employee Bulletin

May 21, 2010

Complimentary Webinar: “Understanding the Impact of Long Term Care”

Long Term Care Partners is offering a complimentary webinar, “Understanding the Impact of Long Term Care (LTC)”, on Tuesday, May 25, 2010, at 2:00 PM ET.

Many of us face the future believing that if we need long term care, a close relative will be our caregiver. What many don't realize are the significant demands providing this care will make on a loved one. Even though most LTC is provided in the home, it may be the most costly type of care that you or your family will ever face. By preparing now, you can help protect your retirement income and the lifestyle of those whom you care about most.

This webinar will explore the realities of long term care and family care giving. It will also review the new Federal Long Term Care Insurance Program “2.0” plan, with enhanced home care features. The speakers will include Ms. Beth O'Brien, Senior Account Manager, Federal Long Term Care Insurance Program, Ms. Mary Lou McGuinness, Director of Care Coordination and Claims, Federal Long Term Care Insurance Program.

To register for the webinar please go to:
