

Sample of DLA Training Logistics Courses

DLA Supply Management	15 days
<p>This course provides basic required training for newly assigned personnel in supply career fields through formal classroom instruction. This course is intended for personnel assigned as Demand Planners, Supply Planners, Customer Account Specialists, Resolution Specialists, and Tailored Vendor Logistics Specialists. It is required for all entry-level interns in the Supply Management Program.</p>	
DLA Supply Management Overview	5 days
<p>This course will provide DLA supply center managers and other personnel, who specialize in career fields other than Planning or Order Fulfillment, with a comprehensive overview of the DLA Planning concepts and techniques. This course is designed for second-line and higher supervisors and managers of multifunctional work units at DLA supply centers who have no background in Planning or Order Fulfillment. It is also designed for personnel who specialize in career fields other than Supply Management.</p>	
Materiel Management Contingency Training (MMCT)	10 days
<p>This course is designed to provide designated personnel deployed with troops in an active theater of operations with the information necessary to represent DLA. The course includes an in-depth description of requisition processing at retail and wholesale levels of supply. The course focuses on sources of requisitioning and delivery information available to DLA representatives, including how to interpret that information and apply it to the solution of logistical problems that could inhibit combat operations.</p>	
DLA Customer Assistance Logistics	4 hrs–1.5 days
<p>This seminar provides the participants with a broad overview of the DLA logistics concepts and principles from the customer’s perspective. Participants gain a complete understanding of the logistical relationship between their agencies and DLA.</p> <p>Participants receive an overview of the functions of DLA supply centers, DLA Distribution, and DLA Business Services. Participants will learn via hands-on access to logistics databases used to interface DLA activities with the Services.</p> <p>Course length varies depending on the participants’ needs (i.e., half day advanced level, 1 day basic level, 1.5 days for participants scheduled for deployment)</p>
