

Sample of DLA Training Environmental Courses

Buying Green: A Multifunctional Approach to Pollution Prevention	2 days
This workshop provides an overview of Federal pollution prevention initiatives and how they relate to the Department of Defense (DOD) acquisition process.	
Department of Transportation Resource Conservation and Recovery Act (DOTRCRA) for Managers	2 days
This course provides managers with an overview of hazardous waste (HW) and transportation regulations and identifies issues of concern in the management of an HW program.	
Hazard Communication (HAZCOM) Standard	1/2 day
This course is designed to make personnel aware of the chemicals they may be exposed to in their work areas and the protective measures that they should take to prevent adverse effects from these chemicals.	
Resource Conservation and Recovery Act (RCRA) Facility Compliance	5 days
This course focuses on how to manage and operate a Resource Conservation and Recovery Act (RCRA) Hazardous Waste (HW) storage facility. Materials include current editions of RCRA regulations. This course is designed to meet the Environmental Protection Agency (EPA) mandatory HW training requirements.	
Safety and Health for Handlers of Hazardous Material and Hazardous Waste (HM/HW)	4 days
This course focuses on how to safely operate Hazardous Material (HM) or Hazardous Waste (HW) storage facilities. The course enables personnel involved with HM/HW to perform their duties without endangering themselves or other employees.	
Transportation of Hazardous Material/Hazardous Waste (HM/HW) for DOD	5 days
This introductory course provides a comprehensive understanding of the Department of Transportation's (DOT) HM regulations. The course provides information on the shipper's responsibility for surface transportation of Hazardous Materials (HM)/Hazardous Wastes (HW) with emphasis on hazardous waste.
